

Independent audit of data extraction: auditor's statement

Systematic review and meta-analysis: DXA-measured body composition with GLP-1 and dual GIP/GLP-1 receptor agonists in adults with obesity or type 2 diabetes (BMC Endocrine Disorders, submission 69e5b6d9; PROSPERO CRD420261323497). Authors: Birkan Alaycı, Öykü Zeynep Gerçek.

Auditor's statement

I confirm that I checked each value listed in Audit_extraction_table.xlsx against the source document indicated, that I was not involved in the original data extraction or analysis, and that my findings are recorded in the auditor columns of the file.
